

SHBG, human

(human Sex hormone binding globulin
or Testosterone estradiol binding globulin)
MW 115,000 daltons

References:

Histochemistry and Cell Biology Vol. 124, Numbers 3-4/September 2005, 285-290

CHARACTERISTICS

Source: Human serum.

Purification method: Affinity purified.

Scientific notes:

Serum glycoprotein. 8% carbohydrate

pI 4.75, 4.85 and 4.90.

Heavy protomer MW 53,000 daltons and light protomer 50,000 daltons with the ratio heavy : light about 10:1

N-linked oligosaccharide chain at 7-Asparagine residue.

ORDERING INFORMATION

Complete technical data sheet provided with the order.

Product code	Product name	Package	*Price in EUR
fh-hSHBGi	Human Sex hormone binding globulin, free of DHT (and/or other steroids). iodination grade, highly purified, > 98% (w/w) <u>For labelling reactions</u> : Frozen at < - 20°C (1 mg/ml solution) Shipment on dry ice. <u>For other studies</u> : Lyophilized powder – Shipment at RT.	100 µg 5x 100 µg 10x 100 µg 1x 1 mg for larger quantities	400.00 1735.00 2750.00 2600.00 Please inquire
hSHBGi	Human Sex hormone binding globulin, iodination grade, highly purified, > 98% (w/w) <u>For labelling reactions</u> : Frozen at < - 20°C (1 mg/ml solution) Shipment on dry ice. <u>For other studies</u> : Lyophilized powder – Shipment at RT.	100 µg 5x 100 µg 10x 100 µg 1x 1 mg for larger quantities	300.00 1300.00 2300.00 2500.00 Please inquire
hSHBGp NEW !	Human Sex hormone binding globulin, approx. 90% (w/w) for WB, IH and/or immunoassay standard curves. Lyophilized powder Shipment at room temperature.	1 mg 5x 1 mg for larger quantities	600.00 2500.00 Please inquire
hSHBGs	Human Sex hormone binding globulin, approx. 90% (w/w) - hSHBG is determined by RIA and total proteins by Lowry method. - for immunoassay standard curves. Lyophilized powder. Shipment at room temperature.	1 mg 5 mg 5x 5 mg for larger quantities	400.00 1750.00 7500.00 Please inquire

* All prices are FOB Liège.
Bulk quantities are available

Also available:

@ hCBG (human Sex hormone binding globulin).

@ hTBG (human Thyroxine binding globulin).

Soon available: Steroids and/or haptens binding resins. **NEW!!!**
